

EQUITY AND INCLUSION FRAMEWORK

Strategies are the broad categories within each large concept: Broadening Participation, Youth-Centric, and Skill Development

Tactics are the specific categories for actions and tools for each strategy. The actions and tools under Tactics are specific equity and inclusion activities.

CULTURAL RESPONSIVENESS is an approach to equitable and inclusive STEM education.

- Integrate cultural responsiveness in every aspect of the framework to foster equity and inclusion in STEM education.
- Recognize and include culturally responsive practices (CRP) at the organizational, personal, and instructional levels.

Broadening Participation: Culturally responsive practices value and build on youth's culture, language, and experiences

Youth-Centric: Design and implement programming with the strengths, needs, and challenges of youth in mind

Skill Development: Culturally responsive practices enable youth to develop STEM and 21st century skills
